EDUCATION

Huazhong University of Science and Technology (HUST), SEP. 2011 - PRESENT

MAJOR: Thermal Energy and Power Engineering

DEGREE: Bachelor of Engineering, expected June 2015

OVERALL GPA: 92.1/100 OVERALL RANK: 1/366

Standard Tests

TOFEL: 107 (R29 L30 S23 W25)

GRE: V152+Q170+AW4.0

RESEARCH EXPERIENCE

Research on the thermal conductivity of folded graphene

SUPERVISOR: Prof. Nuo Yang

Nano Heat Group

NOV. 2013 - PRESENT

- Simulating the evolution process by nonequilibrium molecular dynamics (NEMD)
- Designing innovative structure to reduce the thermal conductivity
- Modifying the parameters of structure to obtain a converged outcome

Research on the thermal and fluid field analysis of sapphire crystal growth

SUPERVISOR: Prof. Haisheng Fang

Multiscale Process Modeling Lab

NOV. 2013 - MAY 2014

- Analyzed the velocity field by using Computational Fluid Dynamics software
- Used Discrete Phase Model to investigate the distribution of inert impurities
- Investigated the relationship between the quality of the sapphire and the rotation speed

Team leader on designing the device utilizing wave energy in small watersheds

SUPERVISOR: Prof. Jun Xiang

MAY 2013 - AUG. 2013

- Designed and optimized the shape of the floating part
- Designed the core component to collect and convert the wave energy
- Made the prototype of the device

PATENT

Q.C. Song et al, "An electricity generating device by utilizing small wave energy" (patent submitted 2014)

HONORS AND AWARDS

National Scholarship (Three times)

Top 1% among all competitors, awarded by Ministry of Education of PRC.

2012 & 2013 & 2014

Outstanding Student of Huazhong University of Sci. & Tech. (Three times)

Top 1% among all 2nd & 3rd year students, one of the top honor for undergraduates.

2012 & 2013 & 2014

Merit Student (Three times)

Top 4% among all competitors, issued by HUST.

2012 & 2013 & 2014

Excellent Award in the 3rd National Water Resource Innovation Design Competition

JULY 2013

INTERNSHIP EXPERIENCE

Summer Internship at Shangu Power Co.,Ltd., Xi'an

JULY 2014

- Learned the manufacturing process of axial compressor
- Learned the CFD calculation of compressor and turbine design

COMPUTER SKILLS

FORTRAN90(MPI), C++, Fluent, AutoCAD, MATLAB/Simulink, \LaTeX
