# **QICHEN SONG**

Zisong6#325, Huazhong Univ. of Sci. & Tech., Wuhan, 430074, China

**2** +86 131 6323 8726

#### **EDUCATION**

Huazhong University of Science and Technology (HUST), SEP. 2011 - PRESENT

MAJOR: Thermal Energy and Power Engineering DEGREE: Bachelor of Engineering, expected June 2015 OVERALL GPA: **92.2/100** OVERALL RANK: 1/366

Standard Tests

TOFEL: 107 (R29 L30 S23 W25) GRE: V152+Q170+AW4.0

## RESEARCH EXPERIENCE

# Research on the thermal conductivity of folded graphene

Nov. 2013 - Present

SUPERVISOR: Prof. Nuo Yang

Nano Heat Group

- Simulating the evolution process by nonequilibrium molecular dynamics (NEMD)
- Designing innovative structure to reduce the thermal conductivity
- · Modifying the parameters of structure to obtain a converged outcome

#### Research on the thermal and fluid field analysis of sapphire crystal growth

Nov. 2013 - MAY 2014

SUPERVISOR: Prof. Haisheng Fang

- Multiscale Process Modeling Lab • Analyzed the velocity field by using Computational Fluid Dynamics software
- · Used Discrete Phase Model to investigate the distribution of inert impurities
- Investigated the relationship between the quality of the sapphire and the rotation speed

## Team leader on designing the device utilizing wave energy in small watersheds SUPERVISOR: Prof. Jun Xiang

MAY 2013 - AUG. 2013

- Designed and optimized the shape of the floating part
- Designed the core component to collect and convert the wave energy
- Made the prototype of the device

# PATENT

Q.C. Song et al, "An electricity generating device by utilizing small wave energy" (patent submitted 2014)

#### HONORS AND AWARDS

# National Scholarship (Three times)

2012 & 2013 & 2014

Top 1% among all competitors, awarded by Ministry of Education of PRC.

#### Outstanding Student of Huazhong University of Sci. & Tech. (Three times)

2012 & 2013 & 2014

Top 1% among all 2nd & 3rd year students, one of the top honor for undergraduates.

Merit Student (Three times)

2012 & 2013 & 2014

Top 4% among all competitors, issued by HUST.

Excellent Award in the 3rd National Water Resource Innovation Design Competition

**JULY 2013** 

#### Internship Experience

# Summer Intership at Shangu Power Co., Ltd., Xi'an

**JULY 2014** 

- · Learned the manufacturing process of axial compressor
- Learned the CFD calculation of compressor and turbine design

#### COMPUTER SKILLS

FORTRAN90(MPI), C++, Fluent, AutoCAD, MATLAB/Simulink, LETEX
